

POSITIVE ACTION[®]
UPPER ELEMENTARY STUDENT SURVEY
(Suitable for grades 3 or 4 and higher)

This survey is best administered by reading it aloud to the whole classroom. It will take 40-50 minutes for most classes, less for higher grades. Many special education students can complete this survey, though they may need some help or more time.

Someone other than the regular teacher should administer the survey. This is to ensure that students feel confident that their answers are confidential – that not even their teacher(s) will see them.

In many cases, two people will be required to administer the survey, one to read it aloud, and one to proctor. The proctor should move around the classroom and make sure that every student appears to understand the instructions and the wording of each item, and is filling in their answers correctly (that is completely filling in the bubbles without making extraneous marks elsewhere on the survey).

Note that it is the responsibility of the School or School District to ensure that all regulations regarding obtaining informed consent of parents for student participation in surveys are followed. Generally, these require informing parents of the survey and its content, and allowing them at least two weeks to deny or give permission for their child's participation. Whether or not signed permission is required depends on the content of the survey, State or local law, and School District or School policies. **The student assent form must be distributed, read and signed before students complete this survey.**

Upon completion, surveys should be collected and placed into a sealed envelope (separate from the signed assent forms) and taken away by the survey administrator(s).

This is NOT a test. There are no right or wrong answers. We are interested in your opinions and feelings.

Please answer each question as honestly as you can.

Please use a black or dark blue ballpoint pen to carefully and completely fill in the circle for the answer that is best for you.

Completely and neatly darken the ovals. Like this: ● Not like this ●

If you make a mistake, to change your answer, cross out the wrong choice like this:  and then darken the correct one.
